

CME FAQ: How to Report Non-Inspection Related Violations

How should non-inspection related violations be reported in CERS?

Violations that are unrelated to an inspection should be reported in CERS with the designation of 'other inspection'. This includes violations such as 'failure to report' and other violations that may be identified without conducting an on-site inspection. Add clarifying text in the Inspection Comment field and your name.

Create Inspection: Palo Alto City Hall (CERS ID: 10143311)
